Structure of Valco Group

“Leading expert in valves solutions”

Our History

1968

Sergot & Seguin merged and SERSEG was created to supply the nuclear market

1990

SNRI SERVICES creation

2003

Malbranque joined TECHNOR GROUP (exit of Royal Econosto)

2015

GUICHON joined the VALCO GROUP

2017

New sales strategy and sales network improvement

1949

Malbranque & Sergot creation

1973

SCHLUMBERGER bought Malbranque and SERSEG

2000

SNRI joined the TECHNOR GROUP

2009

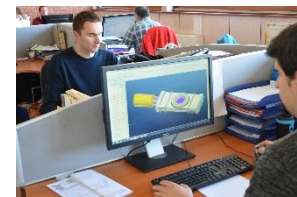

VALCO GROUP FRANCE Creation (SNRI, MM & VVS)

2016

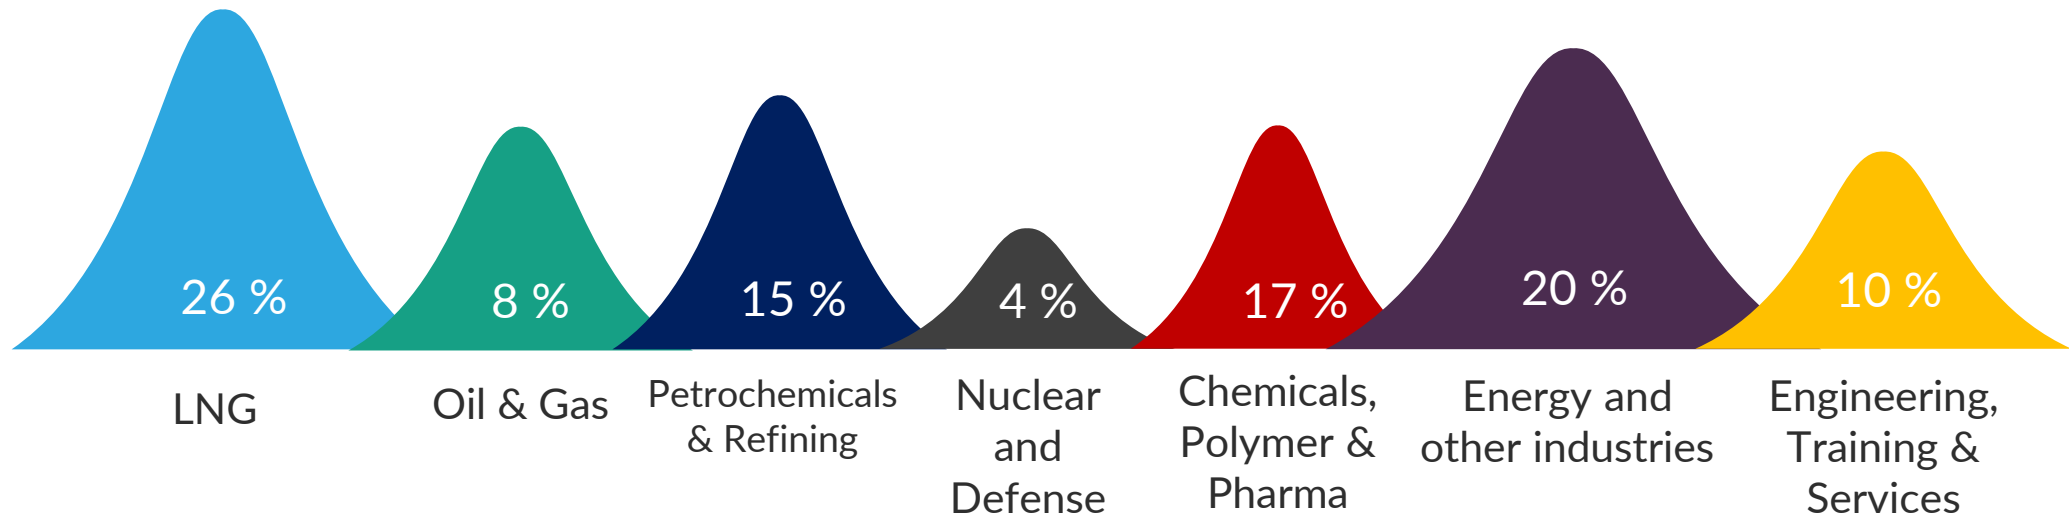

New VALCO GROUP synergies

2018

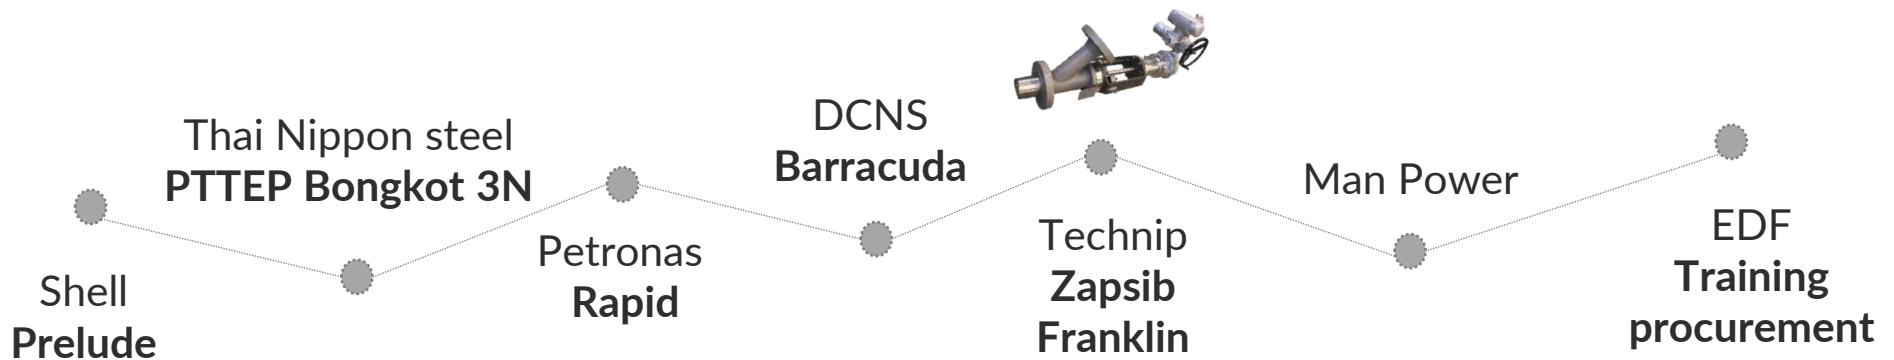

New visual identity & 2021 strategy

Sales sectors

Awarded Projects

International sales network

- 63 Agents and/or distributors
- 55 countries
- **2 main factories**

Our French facilities

SNRI - Malbranque - VVS

Ruffec plant : 270 employees
14000 m² of workshop, offices,
storage

Guichon Valves

Chambéry plant : 90 employees
6000 m² of workshop, offices,
storage

Our French facilities

Our range of products

Globe Valves

Gate Valves

Check Valves

+ Extreme applications

+ Safety & High Pressure Valves

+ Cryogenic Valves

CS

Carbon steels or low alloy steels

SS

Austenitic or super austenitic Stainless Steel (304, 316, 321, Uranus B6...)

DS

Duplex steels

Ni

Nickel and nickel alloys (Alloy 20, Hastelloy, Inconel, Incoloy, Monel...)

Ø

2" to 42"

C

900 to 2500 lbs

Our range of products

Globe Valves

10
Ten millions
of worldwide
references

Gate Valves

- + Extreme applications
- + Safety & Emergency Valves
- + High Pressure (PSB valves)

Carbon steels or low alloy steels

Austenitic or super austenitic Stainless Steel (304, 316, 321, Uranus B6...)

Duplex steels

Nickel and nickel alloys (Alloy 20, Hastelloy, Inconel, Incoloy, Monel...)

2" to 72"

150 to 2500 lbs

Our range of products

Special and custom-made valves (all technologies)

- + Sampling Valve
- + Multiway Valve
- + Tank Bottom Valve
- + Jacketed Valve
- + Piston Valve

- + Slide Valve
- + Transfer Line Valve (TLV)
- + Ball, Gate, Globe, Check Valve
- + Actuators

- + Chemistry
- + Petrochemicals
- + Plastics & Polymers

Carbon steels or low alloy steels

Austenitic or super austenitic Stainless Steel (304, 316, 321, Uranus B6...)

Nickel and nickel alloys (Alloy 20, Hastelloy, Inconel, Incoloy, Monel...)

Duplex steels

Special alloys (Titanium, Zirconium, Tantalum...)

2" to 42"

150 to 2500 lbs

We never let your performance down

VVS Team

Sale support & Supervision

VVS (Valco Valve Services) has the qualification and experience to provide commissioning, repair and maintenance services for valves supplied to all Valco and non-Valco customers, whatever the valve brand is.

A dedicated team of specialists is available for on-site service anywhere in the world. The team also holds permits and certifications for servicing valves installed in nuclear sites.

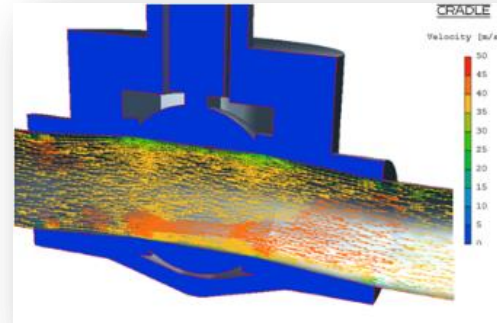

VALCO is also 4.0 oriented : Our smart glasses can be kept by your maintenance staff on plant and used to contact our technical specialists. Easier, faster and cheaper maintenance is a shared goal with our customers.

Our services

Training

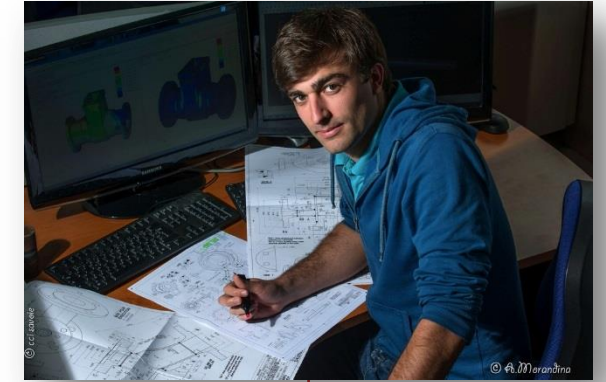

(in house and on-site specific training)

Technical studies
(flow and thermal simulations, design, drawings & mechanical strength analysis)

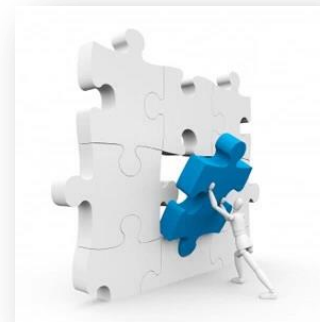

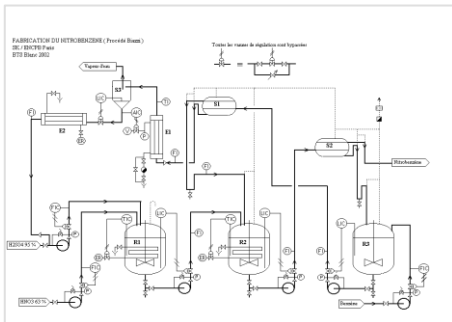

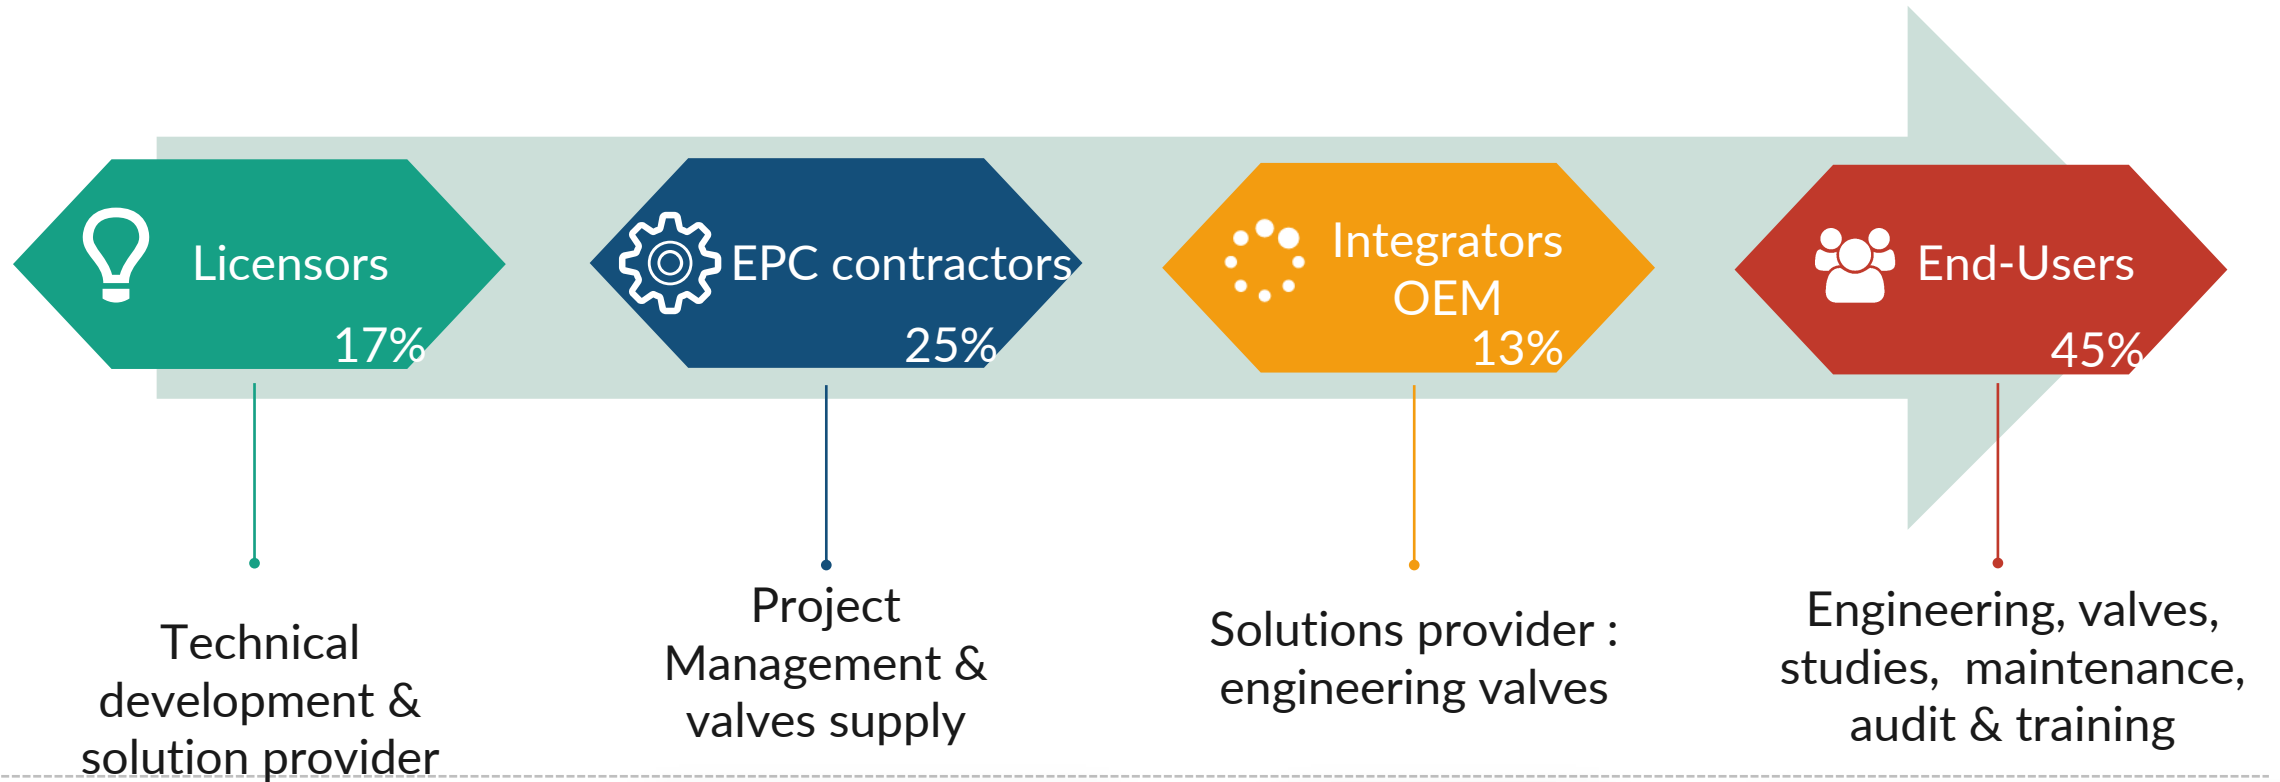

Auditing & Aftermarket

(audit, maintenance & valve management system)

Consulting
(engineering, project management, purchases, start-up & commissioning)

Main customer typology

They trust us

Certification & quality assurance

Construction codes and standards

- ASME CODE –Section VIII and / ANSI B 31.3
